

Store More Chair Shelf™ Assembly Instructions

Congratulations on your purchase of this Store More Chair Shelf™.

To assemble your Chair Shelf:

1. Lay the side with the hook-and-loop strips face up on a flat surface as shown.
2. Thread one wire hook through the closed pocket on the right.
3. Measure width of the chair seat. Add 1". Place second wire hook at that distance from right side.
4. Fold over the fabric at the measured point and press the two hook-and-loop flaps to their matching hook-and-loop strips.
5. Turn the shelf over and wrap each end of the top flap around a back leg. Secure with the hook-and-loop strips.
6. Next, secure hooks under the top flap to the two back legs of the chair. Finally, secure the remaining hooks to the two front legs.
